SKILLS AND LANGUAGES

+ Ruby, Ruby on Rails, Sinatra, RSpec

+ JavaScript, React, Redux, jQuery

+ HTML, CSS, SQL, Git

TECHNICAL EXPERIENCE

Budget Butler - *React/Redux web application allowing users to track spending.*

- Designed a RESTful Rails API and incorporated the JWT authentication system to supply the front-end client with unique user data.
- Built a domain model to enable the categorization of transactions within a budget and select and display transactions within a given month.
- Integrated Chart.js to display customized charts and graphs based on the aggregation of the user input.

Too Many Cakes - *Ruby on Rails application that connects users and reduces food waste.*

- Implemented a recommendation engine to dynamically render food items based on prior user selections.
- Generated custom forms enabling users to select or return a specific number of portions of food.
- Used RSpec tests to assist with creating custom features.

Roll-Out - *Single page JavaScript memory game for up to two players.*

- Incorporated Animate.css to simulate image movement, as well as a promise constructor to control gameplay.
- Tracked click events, images displayed, and correct answers to deliver accurate statistics at the end of each round.
- Designed with the Materialize CSS framework.

PROFESSIONAL EXPERIENCE

Wolf Haldenstein Adler Freeman & Herz LLP, New York, NY

Litigation Paralegal, June 2010 – November 2016

- Ensured accuracy of several millions of dollars worth of claims, for the Firm's highest profile case, in order to achieve greater settlements for clients.
- Managed database of over 30,000 class members and created spreadsheets to identify crucial decision-making factors for partners.
- Proofread and cite-checked multiple legal briefings, while liaising with attorneys and adhering to strict deadlines, before filing with state and federal courts.

Credit-Based Asset Servicing and Securitization LLC, New York, NY

Tax Compliance Associate, October 2008 – January 2010

- Monitored and updated spreadsheets to track tax attributes of securities and remain on schedule for tax filings.
- Prepared and filed tax returns and extensions in over 40 states for the fifteen entities controlled by the organization.
- Created new database of the hundreds of incoming tax notices, yielding more accurate information while increasing accessibility and efficiency.
